

Glodyne achieves global ISO 27001 certification

Mumbai, 6th April 2009: Glodyne Technoserve Limited, a leading Technology Infrastructure Management Services Company announced that it has cleared the ISO 27001 registration audit and has been issued ISO 27001 certification by The Standards Certification Council. With the ISO 27001 certification, the highest certification standard on information security available from the International Standards Organisation (ISO), Glodyne joins the select list of global IT companies in India that complies with this security standard.

Commenting on this achievement, Annand Sarnaik, Chairman and Managing Director, Glodyne Technoserve Limited said, “We are delighted to be awarded this certification, which proves our operational maturity and unrelenting commitment to safeguarding the trust that our clients and other stakeholders place on us. With the ISO 27001 certification the robustness of our information security practices is proved, which would boost customer confidence as they get assurances that the confidentiality of their information is secure in accordance with an internationally recognized standard. Glodyne’s focus is on total quality commitment in delivering IT services to its customers which is reflective in its stringent adherence to various quality and security standards for its operations. “

ISO/IEC 27001 was published by the International Organization for Standardization (ISO) on October 15, 2005. This internationally recognized standard defines an Information Security Management System (ISMS) and complements the ISO 17799 'code of practice' standard. The ISO 27001 outlines the rules for defining, establishing, implementing, operating, reviewing, monitoring and improving a documented ISMS within the context of an organisation's overall business risks.

About Glodyne Technoserve Limited (BSE: 532672; NSE: GLODYNE)
